PROFESSIONAL SUMMARY

Aspiring Data Analyst with hands-on experience in Excel, SQL, Power BI, Python, and data visualization. Experienced in data cleaning, transformation, dashboard development, KPI analysis, and presenting actionable insights. Completed a Data Science internship and developed academic analytics and IoT projects. Seeking an entry-level Data Analyst role.

TECHNICAL SKILLS

- **Data Analysis:** Excel, Power Query, Pivot Tables, Data Cleaning, Data Visualization, KPI Analysis
- **BI & Visualization:** Power BI, Tableau, Excel Dashboards, Pivot Charts, Slicers
- **Programming & Database:** SQL, Python, MySQL, Pandas
- **Other:** Dashboard Creation, Reporting, Analytical Thinking, Problem Solving

PROFESSIONAL EXPERIENCE

VCODEZ Solutions, Sholinganallur | June 2025 – July 2025

Data Science Intern

- Analyzed and processed real-world datasets using Python, Pandas, and Microsoft Excel.
- Cleaned, transformed, and prepared raw data for analysis and reporting.
- Built interactive dashboards and visual reports to communicate actionable insights.
- Collaborated with team members to complete data tasks and meet project deadlines.
- Assisted with predictive-model development for business data analysis.

PROJECTS

Swiggy Sales & Delivery Dashboard | Excel | Power Query | Pivot Tables | Dashboard

- Cleaned and transformed Swiggy project data in Excel and prepared it for analysis.
- Built an interactive dashboard using Pivot Tables, Pivot Charts, filters, and KPI summaries.
- Analyzed order and sales performance to identify trends, category/product performance, and operational patterns.
- Presented key metrics in a structured dashboard designed for quick business decision-making.

E-Commerce Sales Analysis Dashboard | Excel | Power Query | Pivot Tables | Slicers

- Imported and cleaned an e-commerce dataset with 500+ rows using Excel Power Query.
- Built Pivot Tables and Pivot Charts to analyze sales trends, category performance, and regional revenue.
- Designed an interactive dashboard with slicers and filters for date, region, and category analysis.
- Tracked revenue, average order value, profit margin, and monthly growth KPIs.
- Identified top-performing products and customer segments and highlighted low-margin areas for business review.

AI-based Industrial Motor Speed Control | Arduino | Python | MQTT | PID | Machine Learning

Final Year Project | Ongoing

- Developed an IoT-based motor speed control system using Arduino Uno and a PID controller.
- Collected real-time motor parameters and transmitted live data using MQTT to a ThingSpeak monitoring dashboard.
- Developed machine-learning classification for fault detection and integrated real-time alerts for predictive maintenance.

EDUCATION

B.E. Electronics and Communication Engineering | Expected 2027

Arunai Engineering College, Tiruvannamalai
12th Standard | 2021 | GHSS, Koduvai
10th Standard | 2019 | GHSS, Koduvai

CERTIFICATIONS

- Python Advanced Course Completion — Infosys Springboard
- Data Analysis Assessment Completion — Deloitte
- AI & Data Analysis Course Completion — LearnTube AI
- Advanced Excel Course Completion — Cursa
- Microsoft Essentials Certification — Naan Mudhalvan
